Subject: RE: Technical review

Carol,

We have in house technical staff in the bureau, including geologists as needed to perform the technical reviews on this upcoming design that is based on the geotechnical data derived from the Navy's VPB program and other available boring log, chemical analysis and pump test data.

Thank you steve. Who at DEC reviews the geology?

Hey Carol,

It's all good! Gonna hold ya to the lunch too!

Steve

Hi Henry and Steve - I was wondering if DEC regularly reviews the VPB data and provides comments to the Navy and/or Northrop Grumman. Likewise, regarding the Navy's plan to remediate the newly discovered hotspot near BWD 6-2, are you having someone (from DEC, USGS, etc.) review the geology and comment on the potential effectiveness of the proposed system that would capture the hotspot contamination?

Thanks,
-Carol-

p.s. my lunch offer to you is still good. FYI, at last Wednesday's meeting with the Navy and NG, both Rob and I bought salads for Lora (without realizing that the other person was doing this).

Brian Caldwell has sent you 2 files using AECOM's File Transfer System.

Brian Caldwell says:

All:
On behalf of the Navy, please find attached a link to download the following files:
1)The Data Summary Report for VPB 149;
2)A fact sheet for VPB 149 (we intend to develop fact sheets in this format for all past and future VPBs).

Please let me know if you have any problems accessing the files.

Regards,
Brian Caldwell

These files will be available for download until 3/31/2015

<u>File</u>	<u>Description</u>	<u>Size</u>
VPB 149 Fact Sheet March 20 2015.pdf		991KB
VPB 149 Summary Report FINAL March 17 2015.pdf		15,865KB
